We Deliver More Than Furniture...
We Deliver **SATISFACTION!**

Comfort, Without Commitment

The decision to purchase furniture for your home or office can be a very personal, time-consuming and costly process - especially if it is viewed as a long-term commitment. If you are leasing your home or office, with a shorter-term focus, the process of fitting furniture into your temporary space and décor, can be simplified and completed on a more affordable basis. It becomes an opportunity to avoid unnecessary expenses that may not be appropriate for your permanent living arrangement.

This is where we can help. At AFR Furniture Rental, we specialize in providing reasonably priced, stylish and comfortable furniture, for rent or purchase, for your ever-changing home or workplace.

Select from new, brand name designer furniture in styles ranging from contemporary to traditional. Or take advantage of the opportunity to choose top quality, previously leased items to attain even greater savings.
